The Michigan Profile for Healthy Youth (MiPHY) was completed by 7, 9, and 11th grade students in Michigan. The results in this report reflect student survey responses from high schools that voluntarily participated in your county and may not be representative of all high schools in the county. Characteristics of the participating districts and buildings are as follows:

|  | MiPHY District Participation |  |  |
| ---: | :---: | :---: | :---: |
|  | $\#$ <br> Participating <br> Districts | Total <br> Districts in <br> County | $\%$ <br> Participating <br> Districts |
| Public | 4 | 6 | $66.7 \%$ |
| Public Districts with <br> Private School | 2 | 4 | $50.0 \%$ |
| Public School Academy | 0 | 1 | $0.0 \%$ |
| Total $^{2}$ | 4 | 7 | $57.1 \%$ |

${ }^{1}$ A district is counted as participating if at least one building takes the survey.
${ }^{2}$ Public districts may be represented in the "Public" and "Public District with Private School" categories, but are only counted once in the total.

|  | MiPHY Building Participation |  |  |
| ---: | :---: | :---: | :---: |
|  | $\#$ <br> Participating <br> Buildings | Total <br> Buildings in <br> County $^{3}$ | $\%$ <br> Participating <br> Buildings |
| Public | 5 | 11 | $45.5 \%$ |
| Private | 0 | 2 | $0.0 \%$ |
| Public School Academy | 0 | 1 | $0.0 \%$ |
| Total | 5 | 14 | $35.7 \%$ |

${ }^{3}$ Buildings that include 9th and 11th grades in the county as identified in the Educational Entity Master.

Students completed an on-line, anonymous questionnaire. Survey procedures were designed to protect the privacy of students by allowing for anonymous and voluntary participation. Local parental notification procedures were followed before survey administration.

Reports on data results are aggregated across district. To preserve confidentiality, names and results of individual districts are not provided in this report.

The Michigan Profile for Healthy Youth (MiPHY) was completed by 7, 9, and 11th grade students in Michigan. The results in this report reflect student survey responses from high schools that voluntarily participated in your county and may not be representative of all high school students in the county. School buildings are identified in the county by the Educational Entity Master. Characteristics of the participating high school students are as follows:

| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| County (9 \& 11th grade) | 1006 | 36 | 100.0\% | Gender | Race / Ethnicity |  |  |  |  |  |  |
|  |  |  |  | Males | 515 | 22 | 51.2\% | American Indian | 13 | 2 | 1.3\% |
| Grade |  |  |  | Females | 485 | 13 | 48.2\% | Arab/Chaldean | 15 | 0 | 1.5\% |
| 9th Grade | 558 | 4 | 55.5\% |  |  |  |  | Asian | 10 | 3 | 1.0\% |
| 11th Grade | 448 | 8 | 44.5\% | Academics |  |  |  | Black | 16 | 1 | 1.6\% |
|  |  |  |  | As/Bs | 803 | 17 | 79.8\% | Hispanic/Latino | 70 | 10 | 7.0\% |
|  |  |  |  | Ds/Fs | 38 | 9 | 3.8\% | White | 840 | 19 | 83.5\% |

Students completed an on-line, anonymous questionnaire. Survey procedures were designed to protect the privacy of students by allowing for anonymous and voluntary participation. Local parental notification procedures were followed before survey administration.

Reports on data results are available by risk behavior and domain and are aggregated by each of the above subgroups, if possible. Results of any category are suppressed if less than 10 valid student responses are available and is identified by a "-." Comparison statewide data are provided from the Michigan Youth Risk Behavior Survey.

## Notes and aggregation information:

$\mathrm{N}=$ Number of unweighted valid student surveys. Valid surveys are those containing at least 20 or more complete responses after data cleaning.
Missing = number of non-valid student surveys that were removed due to data cleaning rules.
$\%=$ the unweighted percentage of valid student surveys.
Academics uses student self-report of grades earned in school to estimate academic achievement. Students with high grades are those who report getting mostly As and mostly Bs; students with low grades are those who report getting mostly Ds and mostly Fs.
Race/ethnicity was assessed through use of questions taken directly from the Youth Risk Behavior Survey developed by the Centers for Disease Control and Prevention. Students can select more than one race option. For this summary, students were classified as American Indian, Asian, Black (non-Hispanic), or White (non-Hispanic) if they only selected the respective group. Students were classified as Hispanic/Latino if they answered yes to, "Are you Hispanic or Latino?" Students were classified as Arab/Chaldean if they answered yes to "Are you Arab or Chaldean?" Dissaggregation of the race/ethnicity categories for those who indicated, "Native Hawaiian or Other Pacific Islander" and Multiple Race (includes students who selected more than one race category and answered no to, "Are you Hispanic or Latino?" or no to "Are you Arab or Chaldean?") has been suppressed.
